

Número de artículo: 7376287P/12V Kits de arneses de cables (ISO 1724 - Typ N)

|                            |                                                                       |
|----------------------------|-----------------------------------------------------------------------|
| Categorías                 | Wire Harness (vehicle specific)                                       |
| Normas                     | ISO 1724 - Type N                                                     |
| Industrias                 | Cars                                                                  |
| Unidad de control usada    | 12V analógico Monitorización de parpadeo para el control del remolque |
| Price exclusive of VAT [€] | 146                                                                   |

### Detalles eléctricos y resistencia a la temperatura

|                |    |
|----------------|----|
| Voltage [in V] | 12 |
|----------------|----|

### Detalles de empaque y pedido

|           |        |
|-----------|--------|
| Packaging | Cartón |
|-----------|--------|

### Diversa

|                     |   |
|---------------------|---|
| Further information | – |
|---------------------|---|

### Características del kit electrónico

|                                          |                                               |
|------------------------------------------|-----------------------------------------------|
| Activation required                      | No                                            |
| Charging line                            | No                                            |
| Deactivation park distance control (PDC) | Automatica                                    |
| Indicator monitoring                     | Jaegertronic - Centralita eléctrica analógica |
| Installation time in min. (ca.)          | >90                                           |
| LED compatible                           | Si                                            |
| Steady plus                              | No                                            |
| Suitable for left-hand drive             | Sí                                            |
| Suitable for right-hand drive            | Sí                                            |

### Piezas de recambio

|                     |        |
|---------------------|--------|
| Used socket         | 101280 |
| Used socket housing | 381493 |

### Conectividad

|                                         |                 |
|-----------------------------------------|-----------------|
| Connection to vehicle electrical system | Parte delantera |
| No. of poles                            | 07              |
| Socket connection                       | de tornillo     |

### Medidas y dimensiones

|                      |       |
|----------------------|-------|
| Gross weight [in kg] | 0,898 |
| Volume [in l]        | 5,009 |
