

Número de artículo: 74886713P/12V Kits de arneses de cables (ISO 11446)

|                            |                                                             |
|----------------------------|-------------------------------------------------------------|
| Categorías                 | Wire Harness (vehicle specific)                             |
| Normas                     | ISO 11446                                                   |
| Industrias                 | Cars                                                        |
| Unidad de control usada    | 12V Monitorización de parpadeo para el control del remolque |
| Price exclusive of VAT [€] | 114                                                         |

## Detalles eléctricos y resistencia a la temperatura

|                |    |
|----------------|----|
| Voltage [in V] | 12 |
|----------------|----|

## Detalles de empaque y pedido

|           |        |
|-----------|--------|
| Packaging | Cartón |
|-----------|--------|

## Diversa

|                     |   |
|---------------------|---|
| Further information | – |
|---------------------|---|

## Características del kit electrónico

|                                          |                                                                |
|------------------------------------------|----------------------------------------------------------------|
| Activation required                      | No                                                             |
| Charging line                            | No                                                             |
| Deactivation park distance control (PDC) | No                                                             |
| Indicator monitoring                     | Jaegertronic - Centralita eléctrica analógica                  |
| Installation time in min. (ca.)          | <60                                                            |
| LED compatible                           | Si (gracias a la centralita eléctrica alternativa ref. 321331) |
| Steady plus                              | Si, con kit de extensión 1 (ref. 721075)                       |
| Suitable for left-hand drive             | Si                                                             |

## Piezas de recambio

|                                              |        |
|----------------------------------------------|--------|
| Spare part - socket seal for straight outlet | 035716 |
| Used socket housing                          | 380188 |

## Conectividad

|                                         |                 |
|-----------------------------------------|-----------------|
| Connection to vehicle electrical system | Parte delantera |
| No. of poles                            | 13              |
| Socket connection                       | de tornillo     |

## Medidas y dimensiones

|                      |       |
|----------------------|-------|
| Gross weight [in kg] | 0,982 |
| Volume [in l]        | 4,990 |
