## Candidate List

Dear Ladies and Gentlemen,

The European Chemicals Agency ECHA published a list of Substances of Very High Concern on its homepage within the scope of the REACH regulation. This list is called "Candidate list" (<https://echa.europa.eu/information-on-chemicals/candidate-list-substances-in-articles-table>).

Concerning the Candidate List, the Erich Jaeger GmbH + Co. KG is able to declare that – according to today's state of knowledge – none of our products contain any of the questionable substances.

As we do not want this state to change, we are working closely together with our supplier partners in this regard. Amongst other things, we put great emphasis on the extensive documentation of purchasing and handling of established and new materials as well as of semi-finished products.

Furthermore, we manufacture the major part of our products ourselves. Thus, we can assure you with maximum certainty that the products you are purchasing from us are free of Substances of Very High Concern.

Our sales employees and our homepage will keep you informed as to any additions or modifications.

We are looking forward to a further successful and environment-friendly cooperation.

Yours faithfully

Erich Jaeger GmbH + Co. KG
