

Numero dell'articolo: 13P/12V Cablaggio (ISO 11446)  
748251

|                            |                                 |
|----------------------------|---------------------------------|
| Categorie                  | Wire Harness (vehicle specific) |
| Standards                  | ISO 11446                       |
| Industrie                  | Cars                            |
| Price exclusive of VAT [€] | 186                             |

## Dettagli elettrici e resistenza alla temperatura

|                |    |
|----------------|----|
| Voltage [in V] | 12 |
|----------------|----|

## Dettagli dell'imballaggio e dell'ordine

|           |                    |
|-----------|--------------------|
| Packaging | scatola in cartone |
|-----------|--------------------|

## Miscellanea

|                     |   |
|---------------------|---|
| Further information | – |
|---------------------|---|

## Caratteristiche del kit elettronico

|                                          |                                              |
|------------------------------------------|----------------------------------------------|
| Activation required                      | No                                           |
| Charging line                            | No                                           |
| Deactivation park distance control (PDC) | Automatico                                   |
| Indicator monitoring                     | Jaegertronic                                 |
| Installation time in min. (ca.)          | 60–90                                        |
| LED compatible                           | Si                                           |
| Steady plus                              | Si, con kit di estensione 1 (art.no. 721075) |
| Suitable for left-hand drive             | Si                                           |

## Pezzi di ricambio

|                                              |        |
|----------------------------------------------|--------|
| Spare part - socket seal for side outlet     | 036115 |
| Spare part - socket seal for straight outlet | 035716 |
| Used socket                                  | 121111 |
| Used socket housing                          | 381065 |

## Connettività

|                                         |           |
|-----------------------------------------|-----------|
| Connection to vehicle electrical system | Anteriore |
| No. of poles                            | 13        |
| Socket connection                       | A vite    |

## Misure e dimensioni

|                      |       |
|----------------------|-------|
| Gross weight [in kg] | 1,040 |
|----------------------|-------|
